

NO NEED TO REPLACE IMMEDIATELY

Residents with a valid driver's license/ID card are not required to obtain the redesigned card immediately. Existing cards will remain valid until their date of expiration. For at least four years, there will be more than one valid driver's license/ID card until the old design format is phased out.

There are no changes to driver's license/ID card fees. In addition, there are no procedural changes to the Safe Driver Renewal program.

IMPORTANT: YOUR ADDRESS MATTERS

The Secretary of State's office receives returned mail every day containing important notifications or documents. **With the new process of central issuance of a driver's license/ID card, it is critical that customers keep an updated address with the Secretary of State.** State law requires that residents notify the Secretary of State of an address change within 10 days. Customers can make address changes online at www.cyberdriveillinois.com. If you change your address online, you must bring two pieces of identification to verify your new address at your next facility visit. Prior to visiting a facility, visit www.cyberdriveillinois.com for a list of acceptable and required documents.

If you have not received your permanent card after 15 business days, check the status at:
