

Road Rehabilitation tentative work for the week of May 19th:

Phase 1 of the 2025 Road Rehabilitation has been completed and the Contractor will begin the **Phase 2** operations beginning in the Sawgrass subdivision before moving onto Gregg's Parkway between North Huntington Drive and Lakeview Parkway. Once these area has been milled they proceed to the Centennial Crossing Subdivision. This is a moving operation and delays can be expected. Please be aware that a rough grooved surface is the product of this operation until the new asphalt surface is placed.

Residents are asked not to park vehicles on any of the streets during the hours of 7:00 am to 7:00 pm (Village working hours). Overnight street parking will not be allowed per Village Ordinances.

Phase 2 work includes the milling of the existing asphalt surface to a depth of 2-1/4". The milled pavement will be cleaned and inspected for any repairs before the leveling asphalt course is placed. This leveling asphalt course will include the application of an asphalt prime coat (oil) before it is placed. Motorists are asked to proceed slowly thru the construction zones. Please follow the direction of the flag persons.

When the prime coat (oil) is placed please be cautious of crossing the streets, especially with children and pets. A store bought bug/tar cleaner can remove any prime coat tracked onto your vehicles. Signs will be placed the day before the application.

Once the first lift of asphalt has been placed the contractor will begin the final surface course placement. Asphalt lifts can be driven on and motorists are advised to not make sharp turns or sudden stops.

WHEN THE ASPHALT SURFACE COURSES ARE PLACED THE ASPHALT IS VERY HOT AND IF THE AIR TEMPERATURES ARE HIGH, IT TAKES LONGER FOR THE PAVEMENT TO COOL DOWN. PLEASE REMEMBER TO WATCH YOUR CHILDREN AND PETS WHEN CROSSING ONTO THE STREETS.

MOTORIST MAY EXPERIENCE TEMPORARY DELAYS AND POSSIBLE RE-ROUTING OF TRAFFIC DURING CONSTRUCTION ACTIVITIES. PLEASE PLAN AHEAD AND ACCORDINGLY WHEN TRAVELING THROUGH THE CONSTRUCTION ZONES.

The Village's website (www.vernonhills.org.) and Village social media outlets will be updated on Friday's with tentative construction information for the upcoming week. If you have any questions or concerns please contact the Public Works Engineering Division by entering an online Service Request at www.vernonhills.org.

We appreciate your patience and cooperation during this construction project.

Respectfully,

Chris Venatta P.E., Director of Public Works/Village Engineer
