

SKUNK REMOVAL PROGRAM

In an effort to reduce the local skunk population, Vernon Township has initiated a new program providing reimbursement for skunk removal. The Township has partnered with a local wildlife control organization for a two-month pilot program to take place during the months of April and May of 2019. Reimbursement for one animal removal and a reduced rate for the initial inspection of the property will save residents \$185.

The cost to Township residents for this program will be \$65 for the initial inspection (regularly a \$125 cost). Once any animal is trapped, the company will remove it from your property, the cost of which will be covered by the Township (regularly \$125).

To qualify for this program you **must**: be a resident of Vernon Township, inquiring after your own property and must be either a single-family home, a duplex unit, or an individual town home unit.

Once it is confirmed that your property is within Township's limits, we will assist you in completing the trapping services voucher. Upon receipt of the voucher, you can schedule your initial inspection and trap setting. For more information about the program, please contact the Township at (847) 634-4600.

*** This service is available for qualified residents for the trapping of any one animal on their property during the pilot program months of April and May***
