

## **2022 Road Rehabilitation tentative work for the week of April 25th:**

Phase 1 of the Road Project will begin with our contractor saw-cutting for the removal of concrete curb/gutter and sidewalks on Gregg's Parkway, Torrey Pines Subdivision, Pine Valley Subdivision and Muirfield Village Subdivision.

Removal and Replacement of curb/gutter and sidewalks will not begin until the week of May 2nd weather permitting. *Delays can be expected.*

For the residents that will be having concrete removal and replacement at their driveways you will need to park on the street by 7:00 am the day after a notice has been placed at your front door. Once the concrete has been replaced, 3 to 5 days after the barricades have been removed you may use your driveway.

Residents who will be unable to access their driveways during the first phase of construction may park on the street overnight. We have notified the Police Department not to enforce the overnight parking restrictions for Phase 1 only.

Residents and guests are asked to not park in the locations where barricades have been placed, not blocking driveways, near fire hydrants and at crosswalks/corners where prohibited by law.

Postal service, and trash pick-up will continue as scheduled.

Several residents have asked if the concrete subcontractor would provide estimates for concrete work for driveways and driveway aprons. The project subcontractor, *Schroeder and Schroeder Inc.*, can provide an estimate upon request. They ask that the homeowner contact the crew onsite for this request. The Village will waive permit fees for work done with this contractor only in the construction area, and the Village will perform inspections. Any agreements to the scope of work with *Schroeder and Schroeder Inc.* will be a contract between the homeowner and *Schroeder and Schroeder Inc.*

The Village's website ([www.vernonhills.org](http://www.vernonhills.org)) and Village social media outlets will be updated on Friday's with tentative construction information for the following week.

If you have any questions or concerns please contact Public Works, at (847) 367-3726 between the hours of 7:00 am to 3:30 pm Monday thru Friday.

We appreciate your patience and cooperation during this construction project. Should you have any questions, please do not hesitate to contact us.

Respectfully,

David H. Brown P.E., Director of Public Works/Village Engineer
