

2022 Road Rehabilitation tentative work for the week of June 13th:

The contractor will begin asphalt paving this week after being delayed by weather.

The Village has granted permission for our contractor to begin paving operations at 5:30 am for the week of June 13th on Gregg's Parkway only. Due to the limited access for the contractor to perform this work, this will help reduce the amount of delays and potential traffic impacts at the Gregg's Parkway and Butterfield Road intersection. Delays can be expected when the paving operations commence on Gregg's Parkway.

****Residents are asked to relocate vehicles off the streets currently under construction during the hours of 7:00 am to 7:00 pm (Village working hours).***

The first lift of asphalt being placed is the leveling binder and once the compaction by the rollers is completed the surface can be driven on. This usually takes about 5 minutes, please follow the direction of the contractor's workers and flag persons.

Once all of the level binder course has been placed the contractor will proceed with the placement of the final asphalt surface lift.

A light coat of prime may be placed before the surface course, please watch for signs.

Motorist should avoid making any sharp turns on the new surface until it cools down.

****A special note for homeowners, when the prime coat/oil is placed please be cautious of crossing the streets, especially with pets. This also applies when the asphalt surfaces are placed, as the asphalt is very hot and if the air temperatures are high, it takes longer for the pavement to cool down.***

Overnight parking on Village streets is not allowed and please place all garbage cans out of the roadway and at the ends of your driveways not in the street.

The Village's website www.vernonhills.org and Village social media outlets will be updated on Friday of each week with tentative construction information for the following week.

If you have any questions or concerns please contact Public Works, at (847) 367-3726 between the hours of 7:00 am to 3:30 pm Monday thru Friday.

We appreciate your patience and cooperation during this construction project. Should you have any questions, please do not hesitate to contact us.

2022 ROAD REHABILITATION PROJECT UPDATE

Vernon Hills Gregg's Landing North HOA Residents;

The Village has granted permission for our contractor to begin paving operations at 5:30 am for the week of June 13th on Gregg's Parkway only. Due to the limited access for the contractor to perform this work, this will help reduce the amount of delays and potential traffic impacts at the Gregg's Parkway and Butterfield Road intersection.

All other paving operations within the Torrey Pines, Muirfield Village, Pine Valley and St. Andrews subdivisions will take place during normal working hours 7:00 am to 7:00 pm.

Vehicles will not be permitted to be parked on any street during this construction phase. We ask that vehicles be relocated from the streets by 7:00 am. Please place garbage cans at the end of your driveway and not in the street also.

Delays can be expected, please observe construction signs and direction of any workers or flag persons present.

Weekly updates will be posted on the Public Works Department section of our website www.vernonhills.org and other Village social media sites for construction information. We can be reached at (847) 367-3726 between 7:00am and 3:30pm for additional information or concerns. Thank you for your cooperation.

Respectfully,

David H. Brown, P.E.

David H. Brown P.E., Director of Public Works/Village Engineer
